THIS IS UNEVALUATED INFORMATION

25X1

1. The DERUTA\* agency in the Russian Zone of Germany is independent from the SVA and does not come under the latter's sphere of authority. DERUTA is directly subordinate to the Russian Navy, is directly responsible to it, and all its reports and financial statements are sent to the Navy.
2. Within the DERUTA agency, there exists, as a separate subdivision, a special secret department headed by Admiral Nicholovetov. The designation of this department is not as yet known. [REDACTED] This department handles the planning, production and final approval of all matters which concern the shipyard industry. The SVA has no connection with any of these departments. 25X1
3. The DERUTA may be likened to the former German Organisation TODT which was not a part of the civil administration in the occupied areas, but came under the Army High Command. The DERUTA is thus a purely scientific and technical department within the Russian Navy.
